

**Statement of Compliance
Of Central Louisiana Cellular, LLC
With Subpart U of Part 64 of the Commission's Rules**

This compliance statement is made by Central Louisiana Cellular, LLC, on behalf of itself and its wholly-owned subsidiary Central Louisiana License Co., LLC (collectively, "the Company").

The Company's operating procedures ensure that it is in compliance with the rules in Subpart U of Part 64 of the Commission's Rules, as follows.

The Company has implemented a system whereby the status of each customer's Customer Proprietary Network Information ("CPNI") approval can be established prior to the use of CPNI. The Company's employees are trained on these procedures and they are set forth in the company's policies and procedures.

Identity Verification. The Company does not rely on a customer's name, social security number, phone number, or address when determining their identity. Instead, the Company personnel use customer-generated passwords to verify identity. The Company does not release call detail information during telephone-initiated contact until the customer provides the password. If the customer does not provide the password, Company personnel call the customer back at the telephone number of record, or advise the caller to go in to one of the Company's retail stores and show valid photo identification.

Online Access. The Company permits online access only through a password that it sends to a customer that has supplied an email address and has (1) shown valid photo identification to a store representative; or (2) been called back at the phone number of record.

Customer Notification of Changes. The Company notifies a customer immediately when there are any changes to the customer's password, response to a back-up means of authentication for lost or forgotten passwords, online account, or address of record. The notification is mailed to the customer's address of record or called to the phone number of record; if the address was the changed information, the notification is called to the phone number of record; if the phone number was changed, the notification is mailed to the address of record.

Third Parties. The Company does not sell CPNI to third parties. The Company only discloses CPNI to third parties (other than affiliates or duly authorized agents) to the extent required or expressly permitted by law.

Marketing. The Company does not use, disclose, or permit access to CPNI to market to a customer any service offerings that are within a category of service to which the subscriber does not already subscribe from the Company, unless the Company has obtained customer approval to do so in accordance with 47 C.F.R. § 64.2007, or as described in 47 C.F.R. § 64.2005(c), or (as noted in Section 64.2007(b)) as otherwise provided in section 222 of the Communications Act of 1934, as amended.

Training. In accordance with its policies concerning use of CPNI, the Company trains its personnel on when they are and are not authorized to use CPNI. If personnel do not use – or refrain from using – CPNI appropriately, those personnel are disciplined according to the express disciplinary process in the Company's sales and human resources policies.

Supervisory Review; Records. Pursuant to its sales and marketing policies, the Company has established a supervisory review process regarding its compliance with the FCC rules for outbound marketing situations, and the Company maintains records of its compliance for a minimum period of one year. Specifically, the Company's sales personnel are required to obtain supervisory approval of any proposed outbound marketing request for customer approval.

Records. The Company maintains records of any and all sales and marketing campaigns that use subscribers' CPNI, and any times when CPNI is shown or given to third parties. These records describe each such campaign, state what CPNI was used in the campaign, and what products and services were offered as a part of the campaign. The records are maintained for not less than two years.

Notifications. The Company notifies law enforcement and the customer of any breach of the Commission's CPNI rules. The Company, in accordance with its policies, provides written notice within five business days to the Commission of any instance where the opt-out mechanisms do not work properly, to such a degree that consumers' inability to opt-out is more than an anomaly.

Compliance certificate and statement. An officer of the Company, as its agent, signs a compliance certificate on an annual basis stating that the officer has personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the rules in this subpart. The Company provides a statement accompanying the certificate explaining how its operating procedures ensure that it is or is not in compliance with the rules in this subpart. These documents are filed in the company's records. For this year, this document and the accompanying certification constitute that statement.

This statement has been reviewed and found accurate, in accordance with the procedures and policies of the Company, as of February 21, 2011.
